

ABORIGINAL SERVICES

THE FIRST NATIONS MANAGEMENT SOFTWARE SOLUTION BY MICROSOFT

Streamline your operations and improve your effectiveness

BDO Solutions is a leading provider of Microsoft Dynamics software solutions for businesses. We are one of the country's largest and most respected business advisory firms, and have earned the Certified Gold Partner status from Microsoft. We are now proud to support First Nations government in Canada with a specifically-configured financial management solution called **Microsoft Dynamics GP for First Nations**.

By combining the power, simplicity and proven capabilities of Microsoft Dynamics GP with BDO's extensive First Nations experience in Canada, we offer a complete financial management solution tailored to the specific needs of Aboriginal government. This proven Microsoft-based solution is essentially a finance department in a box, providing you with the following capabilities.

Control your costs

There are many ways that Microsoft Dynamics GP for First Nations can help put you fully in charge of your costs. These include the ability to:

- Proactively manage payables, ensuring timely payment with approvals
- "One stop shop" with a financial solution, Microsoft Productivity tools (Word, Excel, Outlook), network infrastructure, training and long-term support
- Improve efficiencies in year-end audit processes
- Independently track all legal entities with consolidations and perform intercompany transactions
- Make more informed decisions with access to real-time financial information, without running reports

- Accommodate future growth for additional users, departments and legal entities in one centralized secure database
- Reduce postage and labour by utilizing electronic banking

Ensure reporting compliancy

Microsoft Dynamics GP for First Nations contains built-in departmental reporting capabilities that make Indian and Northern Affairs Canada (INAC) reporting compliance effortless.

Leverage your existing investment

Microsoft productivity software like Microsoft Office, Excel, Outlook and Word allows Microsoft Dynamics GP for First Nations to tightly integrate the best-of-breed functionality that these programs provide. You can access your email and calendar, create invoices using Word templates, conduct spreadsheet analysis in Excel using live financial data, and more — all within a single application.

The investment in your staff is also protected, since Microsoft Dynamics GP for First Nations looks and acts like familiar Microsoft products that they already use and know. As a result, most staff require minimal training and are productive almost immediately.
