

CASE STUDY - NORWAY HOUSE CREE NATION

The organization

Located in Northern Manitoba with a remote population of approximately 6,000 people, the Norway House Cree Nation provides administrative, infrastructure, housing, social assistance, education and health services to its First Nation's members.

Business situation

The Norway House Cree Nation required more detailed reporting, expense and budget management to enable the community's leaders to make more effective and timely decisions. The members needed a stable and reliable solution that could grow with their expanding needs, as well as a budgeting tool for improved accuracy in forecasting.

Solution

BDO Solutions deployed a centralized financial administration system based on Microsoft Windows Server 2008 platform, using Microsoft Dynamics GP business management software. Dynamics GP was chosen for its ability to provide fast turnaround for specific answers to Chief and Council through intuitive global queries, Smartlists and real-time reporting. It also enabled Norway House Cree Nation to become fully compliant.

Benefits

The solution offered improved internal controls, budget analysis, month-end completion times, and reporting for key stakeholders and INAC. It also offered a centralized, easy access to reporting information for improved job performance.

Why BDO Solutions?

The BDO team is a Microsoft Certified Gold Partner with specific knowledge and experience of the needs and requirements for Aboriginal government.

Customer quote

"We've enjoyed working together with the BDO Solutions group as we implement our new centralized server and Microsoft Dynamics GP solution. We really needed a solution focused on reporting and productivity and are enjoying the Microsoft reporting tools."

– Ruby Scribe, Financial Officer

Aboriginal Services

BDO

BDO is a world wide network of public accounting firms, called BDO Member Firms. Each BDO Member Firm is an independent legal entity in its own country. The combined fee income of all the BDO Member Firms, including the members of their exclusive alliances, was \$5.03 billion in 2009. The global network has 1,138 offices in 110 countries and more than 46,000 people provide advisory services throughout the world. BDO is the brand name for the international BDO network and for each of the BDO Member Firms.
